WhyteCargo
HANDLERS LTD

A Reputation Built on Service

Whyte Cargo Handlers Ltd is a family business with over 30 years experience. From the beginning, we've built a reputation for providing an outstanding level of customer service, underpinned by efficient operations and an optimal approach to quality and safety.

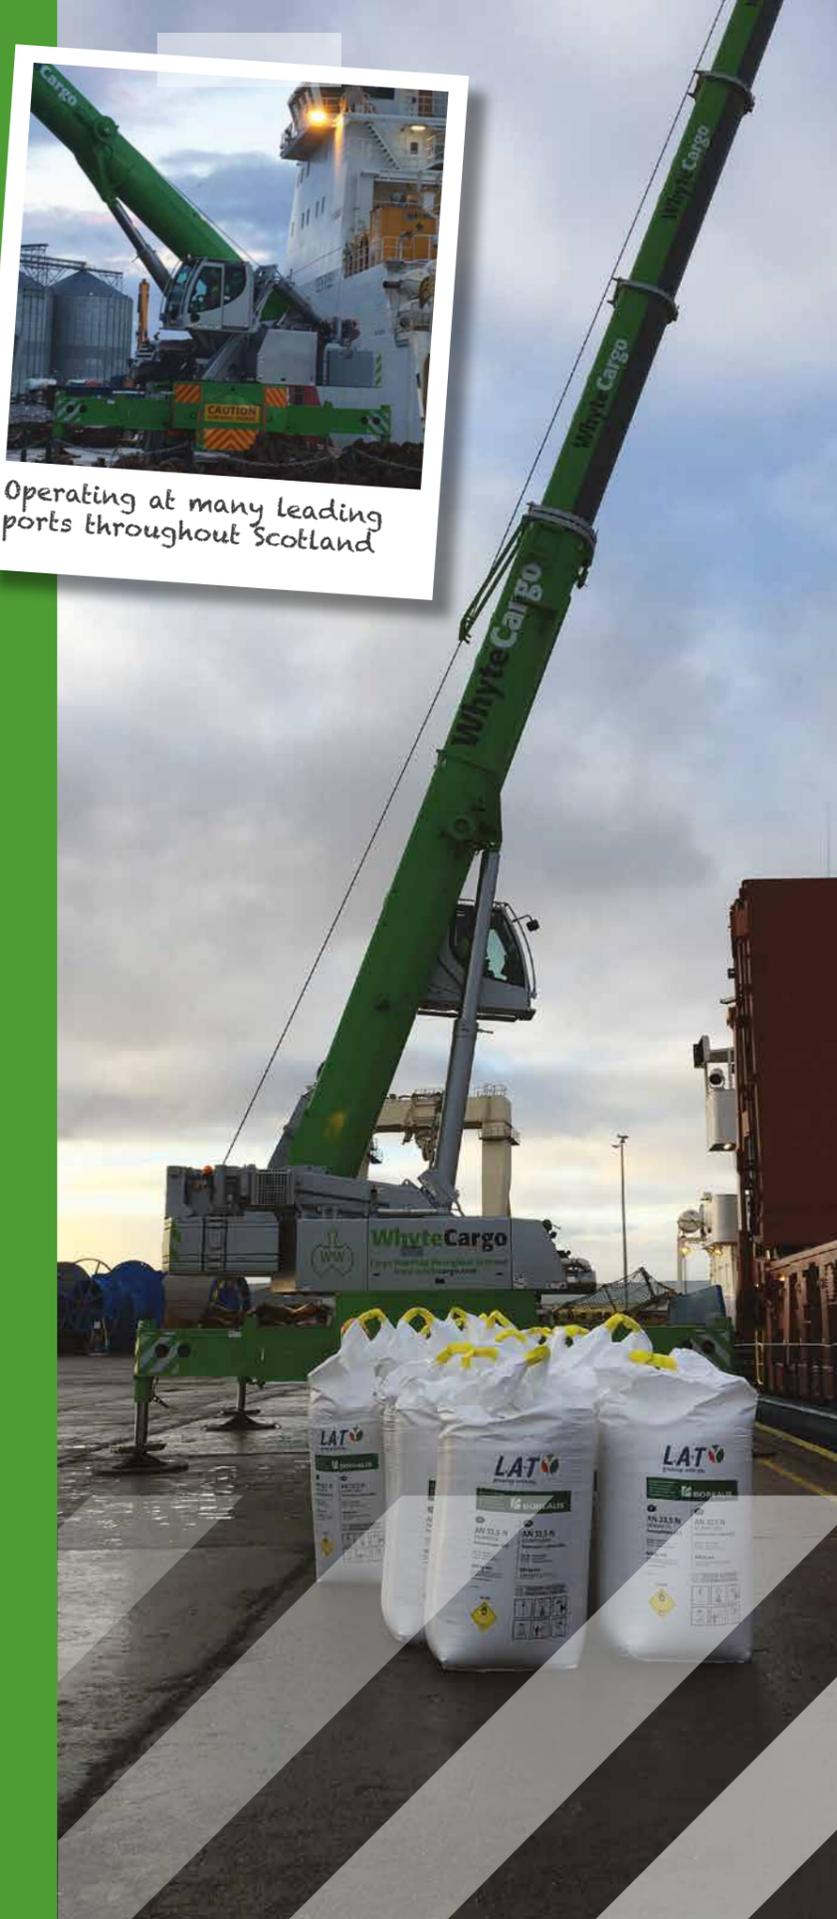

This is reflected in our continual investment in both our people and our plant. We can offer fully trained and accredited personnel who operate within the framework of our safety management system. We have a comprehensive fleet of modern cranes and cargo handling equipment and offer a vast range of lifting and cargo handling services throughout the UK.

As you would expect, we are accredited to ISO 9001:2008 and approved by FPAL which means our clients can be assured of our reliability. Our reputation is built on outstanding customer service and we strive to offer our best on each and every contract for each and every customer.

We offer the most comprehensive range of freight and cargo handling services to the shipping industry. We operate at many leading ports throughout Scotland including Montrose, Aberdeen, Peterhead, Dundee, Fraserburgh and Rosyth.

Whyte Cargo Handlers are well equipped with state of the art cranes and cargo handling equipment from conveyors and loading shovels to forklift trucks. All of our equipment is operated by well trained, qualified and experienced personnel who are dedicated to handling cargo safely and securely. From oilfield equipment to forest products, fertilisers to foodstuffs we cater for the needs of today's shipping agents and ship owners.

Operating at many leading ports throughout Scotland

Heavy Lifts

For a complex or heavy lifts we can offer both telescopic & strut jib models which can be deployed anywhere in the country on a 24/7 service.

Our professional team can offer on site management if required, single point contacts, CAD drawings, full risk assessments and all supporting services as part of the service.

As you would expect with all heavy lifting procedures, safety is of paramount importance. From start to finish, we ensure that all aspects of each lift are managed to ensure a safe and efficient operation. We place a priority on safety and operate under an approved safety system.

...safety is of paramount importance.

Contract Lifts

Our one stop shop approach to contract lifting means we'll work with you to prepare method statements, risk assessments, and CAD plans to make your lift as simple and safe as possible.

We assign a single point of contact so you know who you're dealing with, and who'll feel like a member of your own team.

Our responsible person will handle all of the planning and lift studies and we can even organise road closures, parking restrictions, traffic management, and insurances.

Whether it's a simple one off lift, or the most complicated, short notice, tandem lift in a sensitive area, our entire team will be dedicated to undertaking your project in a safe and efficient manner.
